

MUFA CLEANING POLICY

MUFA is fully committed to safeguarding the health and safety of all participants. For this reason, effective immediately, all MUFA participants, regardless of position or authority, must comply with the following facility cleaning and hygiene policy:

MUFA is responsible for explaining to all participants the cleaning protocols and frequency of cleaning all shared equipment.

MUFA is responsible for providing a cleaning schedule to all participants.

In addition, MUFA has attached a cleaning schedule and procedures specific to this policy for participant review.

Team captains must ensure:

- All participants understand facility cleaning and hygiene procedures;
- High-touch surfaces (discs) are rotated after each point. The disc in use should be wiped down with disinfectant wipes or spray after each point, and should be rotated with one other disc after each point, allowing time for the disinfectant to dry between uses.
- Only [EPA approved disinfectants](#) effective against COVID-19 are used;
- That all participants have hand sanitizer with them at all events.

Participants are responsible for:

- Bringing their own hand sanitizer to all MUFA events
- Performing cleaning as scheduled;
- Using proper disinfecting supplies.
